As soon as the posse was formed, the prisoners were taken to a place called "Lumber," and there they were kept until the posse was broken up.

The posse was broken up by the arrival of a company of St. Paul militia, which was sent to the scene by Governor Clark.

John Jackson, of Preston, is a candidate for the Democratic nomination for Jailer of Bath Co.

Cabe S. Battif, of Bald Eagle, is a candidate for the Democratic nomination for Jailer of Bath county.

The silverites lack only about forty of having enough votes to nominate by a two-thirds majority at Chicago.

CANADA went Democratic last week, but there is not much consolation in it for the Democracy of this nation.

The fool with his or her halberd, continues to tempt fate by fool-hardy feats and saved human remains shily on the ground.

"We have revolutionized the Democratic party on the currency question," says a silverite at Chicago. Major T. O. Towles, of Missouri.

JAMIE CAMPBELL is not one of the Campbells that are coming in Ohio this year. His ship was neither soon nor emphatic enough for the McLean-Thurman crowd.

THE National Democratic Convention will meet at Chicago next week to make nominations and a platform, and probably also disrupt the old Democratic party.

SENATOR PIERCE says the action of the few Populists at St. Louis in urging Teller's nomination at Chicago was an insult and was treacherous to the Populist party. He thinks Populists ought to stand by their own party.

Teller's name will be duly presented at the Chicago convention for the nomination. Teller is as purely Republican except on the silver issue as any man in that party. The folly of the Greeley nomination is still a vivid memory with the older Democrats.

EXCESSIVE competition has so denuded the newspaper business at Owensboro that the fine Daily Tennessean plant brought only \$1,250. At the time of the suspension it was estimated to be worth \$10,000 or more. The creditors will expect to the sale.

WHEN questioned concerning the Chicago convention by a reporter in New York, Senator Wm. Lind say, of Kentucky, said: "Well, it strikes me that we are going straight to the devil; but I hope you will round to somewhere before we strike the jumping-off place."

BOSS PLATT, of New York, gave utterance to this last week: "When you can legislate sense into the heads of fools, virtue into the hearts of knaves, and peace into the souls of the restless and unhappy, then, and not till then, will you be able to equalize the conditions in which the human family lives."

W. H. HARVEY, the author of "Coin," wants a coalition of the silverites of all parties. He proposes Bland for President, allowing him to choose his Secretary of State; let the Democrats endorse the Populist nominee for Vice President, say Senator Marion Butler, of South Carolina; give the Republican silverites Teller for Secretary of the Treasury, and two other Cabinet positions. Harvey says the silver cause is desperate and can't defeat McKinley unless the silverites combine. He says: "I tell the Democrats not to make their platform too Democratic. They can't win as Democrats, but as a Democratic-Populist and Silver-Republican party." Those that like that sort of political verbiage would take it.

THE *Owingsville Outlook* acknowledges receipt of a copy of the special illustrated edition of the *Cynthiana Democrat*. It contains twenty-four five-column pages, printed on calendered paper, and has "pictures all over it." It is sold at ten cents per copy postpaid. The publication of such a handsome and costly edition by a country newspaper office is a piece of enterprise worthy of the highest praise, and doubtless is duly appreciated by the people of Cynthiana and Harrison county. All the more prominent people, officers, women society leaders, pretty girls, handsome children, fine buildings and street scenes of the city are pictured in the half-tones, which are interesting to everybody, while the text is by Editor J. M. Allen, who is one of the very highest, and who adorns everything in the editorial line that he puts his pen to.

THE Committee formally notified McKinley of his nomination, and he formally accepted it and pressed his unqualified approval of the platform. In his speech, as expected, he gave foremost importance to the protection issue. He practically says to the people: "You are mistaken about the money being the paramount issue. A protective and prohibitory tariff that taxes the people for extravagant expenditures and gives an indirect bounty of hundreds of millions to the tariff barons will cause the maintenance of the value of all our money, secure the inviolability of the money standard, and preserve the faith and honor of the nation abroad." If Mack's heels knock out the stars in the zenith next November he will have himself to blame for it. Mack's ignoring an issue may not cause the issue to be ignored by the voters.

MR. Davis and Greenbacks. (St. Louis Globe-Democrat.) Twenty years ago the late Jeff Davis made a visit to Missouri, which is still remembered by many. The train upon which he was traveling stopped at De Soto, on the Iron Mountain road, for dinner. There was a Greenback convention in session there. A crowd collected at the depot to do honor to the distinguished visitor, who was easily persuaded to make a short speech. "How about greenbacks?" shouted somebody in the gathering. "Well," said Mr. Davis, "if you want scrip to trade with among yourselves, you can issue county scrip or township scrip—it will be good enough as long as you have faith in it. But you want to do business with the world at large; you must use the only currency that is recognized by all the nations of the earth, and that is gold coin." The greenback craze was then as wild as the silver craze is now, and the few words of the ex-Liberator chief had as much sense in them as they would have if uttered now.

MR. Davis and Greenbacks. (St. Louis Globe-Democrat.)

Twenty years ago the late Jeff Davis made a visit to Missouri, which is still remembered by many. The train upon which he was traveling stopped at De Soto, on the Iron Mountain road, for dinner. There was a Greenback convention in session there. A crowd collected at the depot to do honor to the distinguished visitor, who was easily persuaded to make a short speech. "How about greenbacks?" shouted somebody in the gathering. "Well," said Mr. Davis, "if you want scrip to trade with among yourselves, you can issue county scrip or township scrip—it will be good enough as long as you have faith in it. But you want to do business with the world at large; you must use the only currency that is recognized by all the nations of the earth, and that is gold coin." The greenback craze was then as wild as the silver craze is now, and the few words of the ex-Liberator chief had as much sense in them as they would have if uttered now.

MR. Editor: For the benefit of the people along Licking river, will you please publish whether or not it is a violation of the law to fish in Licking river with a small box-trap?—[The newspaper reprint of the State law would seem to expect catching fish in a trap from the penalty. We haven't seen an authorized copy of the law and can't say whether or not it was the intention to prohibit the trapping of fish.—Ed.]

WE have had several very hard rains within the last week, doing great damage to the crops.

Wheat harvest is at hand, but the wet weather is keeping the farmers from cutting much.

The two-weeks' meeting at the Christian Church closed Friday night, with several additions.

Miss Nola May McFar, who has been attending the meeting here, is sick at Mrs. Robinson's.

The free-turnpike evening express came in from Reynoldsville loaded down to its utmost capacity. Geo. Markwell was conductor and Capt. John Summerfield was engineer. John said he would rather run a free-turnpike engine than to kill rats or tree toads.

Children's day came off Sunday of last week at Fairview Church, and it was a thorough success. It was conducted by Bros. Boots and Wood. Both are worthy ministers. Several of the children gave beautiful recitations. Two of the best pieces were given by Misses Annie and Borth Copher. There was a large congregation in attendance.

Thos. D. Anderson's little girl went to let the chickens out of the coop last Sunday morning and found a large snake in the coop. It had swallowed a chicken large enough to fry and could not get back out of the hole it went in at. Mr. A. said it had killed the remainder of the chickens, as they were all dead. Mr. A. said he killed the snake and he measured 5 ft. 8 inches in length.

We understand that the trustees of this school district have engaged Mrs. Mattie Ingram, of Emporia, Kansas, to teach our school, as we have got no teachers in this county.

THE SICK.—Miss Anna B. Snedger gradually grows weaker. Mrs. James McDonald is about the same as last week. Andrew Nester is going to visit.

ROBERT BROWN left on Sunday last for Henry county in the interest of the Standard Cabinet Co. Success to you, Robert.

MISS RHADA PHELPS returned the first of last week from Winchester, but was called back on Wednesday by the relapse of her aunt, Mrs. Rachel Vivian, who died on Thursday night.

THE SICK.—Mrs. T. L. Jones is quite sick and has been for the past two weeks. Miss Sallie Dealey is worse. Mr. and Mrs. G. W. Moreland are able to visit friends. They and J. T. Gudgeon and wife visited the family of W. S. Estill Sunday and before partaking of an excellent dinner they all had themselves weighed. After dinner they all felt like they had been weighed too light, so they all weighed again, but weighed all of them in the same weight except Mr. Moreland, who weighed a slender 140 lbs. and J. T. Several from Salt Lick attended Fiscal Court Saturday in the interest of the turnpike from Salt Lick to intersect the Menifee county road. The court, as I understand, has proposed to build and own the road, which is a good idea, better than free turnpikes. It is a little Populist, though none the worse for that, as time will prove.

B. B. Bigstaff gave us a pleasant call one day last week. Whilst Ben is not climbing high the ladder of fame as some are, he is laying deep the foundation for a structure that will endure longer than all the fabrics of fame reeled by human hands, and will be remembered by the little ones long after he has passed into the great beyond; and their children and children's children will rise up and call him blessed.

I see the Republican platform criticizes the Democratic administration for issuing \$262,000,000 of interest-bearing bonds, but has no word of condemnation for the big Republican Congress just adjourned, which granted free authority for the nefarious work and its failure to pass the bill to prohibit bond issues without authority of Congress. Get out of the gold-bug Republican party is my advice to those that want better times. The Populist members of Congress have a record in favor of free silver at the time a Democratic House and a Democratic Senate repudiated the silver-purchase law, which was signed by a Democratic President. All the Populist Congressmen and Senators have voted on all occasions for free silver on a ratio of 16 to 1. The only genuine free-silver party in the United States is the People's party, and it has no record of broken promises.
